
Amiga AV to HDMI

Board by Chris Hooper amiga@cdh.eebugs.com

http://eebugs.com/amiga/pihdmi

This design is based on ideas from Linuxjedi's CPLD Amiga RGBtoHDMI. which uses software developed by hoglet67's RGBtoHDMI project. Audio circuit reverse-engineered from c0pperdragon RGBtoHDMI Audio. HDMI switcher from highbpuff's iKod Ratte Monitor switch. Gotek OSD circuit based on FlashFloppy OSD by kiert.

Do not populate buttons, sockets or switches on this side of the board
